Reference: D910

10ml Reed Diffuser

Reed Diffusers are great for us at the office or at home. Pleasant scents enhance any space and provide “personality” to a room or office. Unlike candles, reed diffusers are flame free and do not require any heat. The fragrance oils are absorbed up through the willow reeds and the scent is dispersed naturally through evaporation. Higher temperatures will increase the speed of evaporation, but most 10ml diffusers will last 2 weeks in most temperature-controlled environments. Scents are best experienced as you walk by a diffuser, and work well placed towards the entrance of a room..

Price Range: \$2.35 - \$3.35 Per Unit
Setup \$75.00

Reference: D930

30ml Reed Diffuser

Higher temperatures will increase the speed of evaporation, but most 30ml diffusers will last 3-4 weeks in most temperature-controlled environments. Scents are best experienced as you walk by a diffuser, and work well placed towards the entrance of a room.

Price Range: \$2.75 - \$3.85 Per Unit
Setup \$75.00

PERSONALISATION

Branding Options:

- Laser Engraving
- Laser Engraved w/ Mirror Finish
- Heat Transfers
- Digital Glass Printing
- Digital Direct Printing
- Pad/Screen Printing
- Variable Data Opportunities (see below)

Variable Data Branding:

This is a form of digital printing and/or laser engraving in which elements such as text, may be changed from one decorated piece to the next, without stopping or slowing down the process and using information from a database or external file.

For example, a set of cheese boards, each with the same basic layout, can be engraved with a different name on each board. Variable data branding is not available on every product due to size restrictions and machine limitations.

Each method of personalisation has its own cost and timeline.

Please make sure to inquire prior to placing your order.
